

Application Fee Waived for Qualified Applicants

If you have participated in one or more of a list of programs designed to prepare students for graduate study, we waive our application fee. The list is in the screenshot below.

The process for waiving the fee is simple: on page 9 of our application for admission (screenshot below), simply check the program(s) you have participated in. Once you have checked, the system will automatically waive your application fee.

We do receive notice of your participation from these organizations directly, but in order to process applications efficiently, we do not require confirmation before you submit your application.
